Recruitment Update

The POISE Study now has **99** participants!

We had **6** consents in May Well done! to **Aberdeen and Bristol** for consenting 1 participant each and to **Sheffield and Kings College Hospital** for consenting 2 participants each.

Note: Please remember to give a copy of signed paper/downloaded copy Informed Consent Form to participant, and also encourage them to download signed e-consent when completed remotely as this is a regulatory requirement.

Our **May recruiters** were:

Liverpool (1)

Salisbury (1)

King's College Hospital (1)

IMPORTANT NOTICES!

eConsent Update

We will be putting an amendment through on the database so that a **fully signed copy of the Informed Consent Form** will automatically be emailed to the participant, as it has come to our attention that participants and sites may not be downloading the fully signed copy at the end of the consent process.

We will notify you as soon as this amendment has been approved and the has been implemented into the database. But until further notice, **please ensure the participant is getting a copy of their consent forms at site.**

DEXA scans

This is just a quick reminder to **please ensure that follow up appointments are being booked in advance**, particularly as patients are approaching their 1 year DEXA scan time-point.

If possible, please arrange for 1 year follow up DEXA scans to be booked in after the baseline DEXA appointment.

All Sites Meeting Follow Up

We just wanted to say a big thank you to all our sites for joining in on the all sites meeting and for sharing your thoughts on how recruitment can be improved at individual sites.

You should have also received an email offering your site a personal visit from our Chief Investigator, Melanie Davies. This will give you a chance to have an informal face-to-face conversation with our CI in which you can ask any questions and receive some tips on recruitment strategies.

If you have not already responded, please reply with availability that would suit the PI and the majority of the site team.
