

The POISE Study

Welcome to the POISE Study

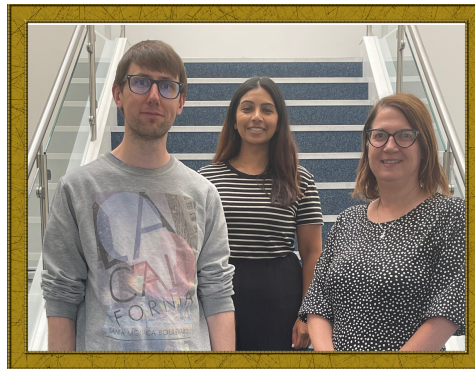

Welcome

We would like to welcome you to the first edition of the **POISE** study site newsletter. The newsletter will be used to share site and recruitment updates, hints and tips for successful recruitment and retention, celebrate success and provide training updates.

Meet the team

Hello everyone, and welcome to the wider **POISE** team!

I would like to introduce myself, Damini Mistry, trial manager and Wendy Daunt, trial coordinator and Jay Seale, trial administrator.

Hopefully by now you've all had some contact with us to get you up and running as a recruiting site for the POISE study. We are very excited to see progress in the study during such ongoing challenging times and a lot of that is down to your hard work so thank you, it is much appreciated. If you have not yet booked in your **Site Initiation Visit (SIV)**, please talk to your team about availability and get in touch with us to book in your training. We have had a busy couple of months: we have delivered 6 SIVs since May and have 1 site open to recruitment with several others very close to opening. Your enthusiasm for the study is clear. We will continue to open sites throughout the rest of the year and will keep you updated. As ever Wendy, Jay and I are here to support you and make this study a success.

Kind regards, **The POISE Study Team**
